BANK DEPOSITS AND LOANS

Bankers Well Supplied with Money, for Which There Is No Special Call.

Grains Continue Firm on Light Supply and Small Demand, with Slight Changes in Quotations-Figures on General Produce.

MONEY AND STOCKS.

Clearings and Balances of the Associated

Banks-Deposits Continue Good, The clearings of the six associated Indispapolis banks, yesterday, amounted to \$689,032,22; balances, \$90,899.08. For the corresponding date in 1891 the clearings were \$637,719.10; balances, \$81,512.74. Deposits continue good, with no special demand for money.

NEW YORK QUOTATIONS.

At New York, yesterday, money on call was easy at 14 @2 per cent., the last loan being made at 2, closing offered at 2 per

Prime mercantile paper, 314 @5 per cent. Sterling exchange was quiet but steady at \$4.86 for sixty-day bills and \$4.871/2 for demand.

The total sales of stocks were 276,632 shares, including the following: Atchison, 8,166; Chicago Gas, 6,650; Delaware, Lackawanna & Western, 16,960; Delaware & Hudson, 7,224; Erie, 7,200; Louisville & Nashville, 3,350; New Jersey Central, 4,760; Northern Pacific preferred, 5,455; New England, 19,500; Reading, 62,970; Richmond & West Point, 5,863; St. Paul, 10,000; Union Pacific, 3,484; Western Union, 4,48%.

There was not much encouragement for the bears in the stock market yesterday morning. London figures were higher, but foreign houses were doing little and dullness in the market continued unrelieved, except for the special animation in industrial, New England and specialties, and later in the Coal stocks. Some sensational stories of intended litigation against the Cordage offered an opportunity to the bears to raid prices off 3 per cent. for the common and 14 for the preferred. Against these movements were to be placed the new spurt in the Lake Erie & Western stocks, which carried the common up about 1 per cent. and the preferred nearly 2, which was accompanied by marked strength in the industrials and later in the coalers, all of which were again advanced materially, with Delaware & Hudson in the lead. Keading, however, again took its old place at the head of the speculation, and scored a much larger advance than usual. The general market remained without feature, and the activity and strength in the leaders, while sufficient to give a firm temper, failed to move prices to any appreciable extent. The close was dull and firm, generally at the best prices of the day, but in few cases materially higher. The marked gains included: Jersey Central, 234; Reading and Sugar, each 134, Lake Erie & Western, 174; Lackawanna, 1%, and Chicago Gas, 1 per cent., while cordage is down 1 per cent.

Railroad bonds were again specially active, and with a wide distribution of the business a firm to strong temper was shown throughout the day, with but few material gains as usual. The Reading issues and the Richmond & West Point issues were specially prominent in the dealings, and all of the Readings are higher, but Richmond & West Point fives, after selling down to 56%, closed unchanged at 58%. The transactions reached \$2,252,000. Government bonds were dull and steady,

and State bonds were the same. Closing

PARDRIDGE'S RACE IS RUN

Having Escaped through a Very Small Hole in May, He Transfers to July.

Messages All Partock of the Bullish Complexion, and the Price of Wheat Advanced Nearly 2c, Closing at 8218c.

TRADING AT CHICAGO.

A Corresponding Rise in Corn and Pro-

visions Was Scored. CHICAGO, April 13.—The elements came to the rescue to-day. Wheat made a gain of 21/2c and closed within a quarter of the top, at 82e for May, with Pardridge, whose doings attracted much diminished attention, changing trades to July to escape the pressure for the cash article. Local shorts seemed uneasy and covered pretty freely. Corn and provisions participated in the improvement. The weather was the chief bull factor. It was cold in many parts of the winter-wheat belt, and further rains were reported in the Northwest, putting back the seeding still more. Bradstreet's report of the available supply showed a decrease of 2,320,000 bushels east of the Rockies, and 100,000 bushels on the Pacific, making a decrease of over 2,400,000 bushels. The morning papers had a card from Statistician Dodge which was also construed as bullish, as it expressed the opinion that not more than 82,000,000 bushels of wheat was available for export on March 11, and that at present prices not more than 50,-000,000 bushels could be reasonably calculated on. All these influences combined to make a strong market, and stimulated the covering of wheat and restricted the selling. The scalpers seemed to be rather bearish, and fought the advance some, but outside buying orders were rather gener-

The export movement was moderate, including 307,000 bushels of wheat and 49,000 parrels of flour, equal to about 530,000 bushels of wheat. May wheat opened at 80%c, fell to 80%c, then became strong, and sold to 81%c, eased off to 81c. During the last hour the wheat market continued to develop strength, and May went up to 82 6c, with a good deal of excitement, but eased off later to 811/2c, then reacted to 824c, and at the close was steady at 824c. Very well informed people claimed that the heavy movement of spring wheat had run its course. Receipts in the Northwest, they say, must henceforth be on a much diminished scale, unless the stacked wheat threshes better than is expected. The winter wheat receipts have, for about six weeks, already been no larger than those from the small crop of the preceding season at the similar period a year ago. The poor promise at the beginning of April for next winter wheat harvest is not becoming any better as the days pass. A telegram from Minneapolis reported that spring work in the country will be a month, possibly six weeks, late. The late private cables quoted Livergool from 4d to 1d higher and market anyoneing. There was a rumor which no one took stock in about Russian generals being ordered to the frontier. The cash wheat was held at 1c premium and it was claimed that a quarter-million bushel lot had been worked for export. This was not confirmed. The continued reports of adverse weather and the fact that Pardridge was getting in his May and going to July made the other shorts squeamish and helped the late ad-

The opening of navigation and the close approach of the middle of April has brought no such improvement in the grading of corn as predicted. It is current gossip that if present conditions continue for a few days longer, corn will divide, with wheat, the general interest. There was some indication in the pit to-day of a renewal of the Cudahy buying for May. The upward movement of prices had few set-backs. The market closed firm at about best prices, with a gain of 4c in May and 4c in July from last night. The oats market was a sympathetic one, following wheat closely all day. A. S.

White operated pretty freely, buying May and selling July. The market closed 1/20 higher than twenty-four hours previous. In the provision pit, brokers stood idly about, commenting on the great cattle rewith pork, etc. The market had no independent support. Later, when wheat was up over 2c from the opening and corn stronger and advancing, the provision prices were bid up on comparatively light business. Compared with last night, the closing is up 12 c for July pork, .05c for lard and .02 c for ribs.

Freights were easy at 2c for wheat and 14c for corn to Buffalo. Through rates, lake and rail, to New York were weak at 15c for flour, 74c for wheat, and 7@74c for corn. Rates on corn to New England declined 1c, rate now being 10c. Estimated receipts for to-morrow are: Wheat, 66 care; corn, 175 cars; oats, 142 cars; hogs, 20,000. There will be no session of the board day after to-morrow, on account of Good Friday. A week from Saturday the board will vote on restoring the market quotation department. The leading futures ranged as follows:

Options.	Op'ning	Highest.	Lowest.	Closing.
Wheat-April.	8019	824	807a	821

-THE-

DAILY, SUNDAY AND WEEKLY.

The Journal is first of all a newspaper. Its primary object is to publish the news, and to secure this it spares no pains or expense. Besides the service of two great news agencies, which cover foreign countries as well as the entire United States, it has a corps of Special Correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana public. Its Washington bureau was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of an Indiana man well acquainted with the local business and political issues. It has a correspondent in every town of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter. Its staff of city reporters is large, and its local departments are unexcelled. As a news paper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan

But while the Journal is non-partisan as to news, it is a Republican paper, and sets forth Republican principles. It is important that the people shall read the truth about these principles, and it was with the object of putting everybody in the way of doing so that the price of the

- Was reduced to -

A WEEK

No other method of securing a Republican victory at the polls is so certain as the circulation of Republican papers among voters. Since the reduction in the price thousands of subscriptions have poured in from all parts of the State, showing that a need was supplied. In order to have the proper influence and effect upon voters seeking for trustworthy information the Journal should go into their hands at once, and not next spring or summer. Clubs are being formed and agencies established wherever daily mails reach, and as rapidly as traveling agents can visit the places, but Republicans in each and every locality cannot do their party greater service than to interest themselves in circulating the Journal.

The Sunday Journal

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of

CHOICE READING MATTER

That satisfies the most exacting taste.

The same reasons that call for the im mediate extension of the the daily circulation apply to the weekly. This is carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican doctrine.
